**Tokyo Disneyland New Attraction
Goofy's Paint 'n' Play House
Opening on August 24, 2012**

URAYASU, CHIBA— **Tokyo Disney Resort®** announced that the new attraction, **Goofy's Paint 'n' Play House**, will open on August 24 at **Tokyo Disneyland® Park**. Located in Toontown, where Mickey Mouse and his pals live, **Goofy's Paint 'n' Play House** lets guests have fun helping Goofy redecorate his room in a unique and toony fashion with what seems like real paint.

Groups of guests work together to colorfully paint a room in Goofy's house using special paint applicators, called Toontone Splat Masters. These tools are easy to use: guests simply aim at the wall or furniture they want to color and activate the applicators.

The attraction features beach, jungle and other remodeling themes, as well as various types of Toontone Splat Masters, so guests can enjoy a different experience each time they visit.
